

Let It Glow Floor Care System

Let it Glow Q & A

Little D can interview Dorvan and ask questions like a contract cleaner may ask. I would make a video Q & A as well as written on the website under the heading Q & A. Add your own questions too!

1. Q. I already have a cleaner and floor finish why should I use Let it Glow Floor Cleaner & Restorer and Let it Glow Floor Finish?
A. Using Let it Glow Floor Cleaner and Restorer. You are eliminating stripping. So saving up to 60-70% on labor and materials by following our system.
2. Q. Do I need to strip my floor first before using Let it Glow Floor Cleaner & Restorer or Let it Glow Floor Finish?
A. No. Let it Glow Floor Cleaner and Restorer removes the dirt from the wax and will not remove the floor finish. So the need to strip your floor is eliminated.
3. Q. What is the best floor pad to use on my scrubber when cleaning with Let it Glow Floor Cleaner & Restorer?
A. When nightly floor cleaning, use a soft white polish pad. For the restoration process use a green scrubbing pad.
4. Q. How much do I measure Let it Glow Floor Cleaner & Restorer for my automatic scrubber for daily cleaning?
A. Very simple. Measure one ounce of Let it Glow Floor Cleaner and Restorer to 1 gallon of cold water. For example. If I put 10 gallons of cold water in my scrubber I would add 10 ounces of Let it Glow Floor Cleaner and Restorer to my scrubber.
5. Q. How much do I measure Let it Glow Floor Cleaner & Restorer for my mop bucket for daily cleaning?
A. Use only 1 ounce of Let it Glow Floor Cleaner and Restorer per gallon of cold water. Example: If you use 2 ounces of Let it Glow Floor Cleaner and Restorer you would use 2 gallons of water.

Let it Glow Floor Care

6. Q. After my initial application of Let it Glow Floor Cleaner & Restorer how many coats of Let it Glow Floor Finish should I apply?
A. You will only need 1 coat of Let it Glow Floor Finish after the cleaning process. You're removing the dirt from the finish that is why you only need one coat. The previous finish will still be on the floor.
7. Q. How far will a gallon of Let it Glow Floor Finish cover?
A. A gallon of Let it Glow Floor Finish will cover approximately 2400 sq. ft.
8. Q. How often should I use Let it Glow Floor Cleaner & Restorer?
A. The recommended use of Let it Glow Floor Cleaner and Restorer would be to use daily to maintain a clean, shiny, protected floor throughout the year.
9. Q. How often should I use Let it Glow Floor Finish?
A. You only use Let it Glow Floor Finish after the restoration process which is determined by your traffic flow.
10. Q. You said that I will not strip again using Let it Glow Floor Cleaner & Restorer and Let it Glow Finish. What do I do if my floors become unmanageable?
A. This is a simple process. Follow the Restoration process. When using Let it Glow Floor Cleaner and Restorer per gallon of cold water when you start your restoration you will burnish the floors after scrubbing the floors. Then mop or scrub the floor nightly with 1 oz. Let it Glow Floor Cleaner and Restorer in 1 gallon of cold water. Then burnish floors on a regular schedule. This maintains a clean glowing finish, on a day to day basis.
